Mentalix Receives Prestigious MSDPS Certification

Mentalix is pleased to announce the successful completion of the intensive, multi-day, Mississippi Criminal History System certification process held in Jackson, Mississippi Department of Public Safety, and the Mississippi Criminal Information Center, Mentalix's line of live scan solutions are now certified for use in arrest, applicant, and Department of Corrections transactions containing ten prints and palms. This certification includes use by civilian establishments, as well as use by law enforcement agencies, and applies to the entire Fed Submit Suite, including live scanners, card scanners, and printers. Mentalix would like to thank the MSDPS for the award, and for the opportunity to more fully serve the people of Mississippi.

More About Mentalix

Mentalix is a Texas-based biometrics industry leader dedicated to unparalleled customer service and unmatched product quality. For decades we have worked hand in hand with local and federal agencies across the country, committing ourselves to their success and future growth.

With numerous FBI-certified, IAFIS-compliant finger and palm print solutions and hundreds of install sites, Mentalix's API products are key components for top international biometrics developers and have provided thousands of agencies with accurate and dependable identity management systems. Whether you're a small town looking to modernize, a state that needs a city-wide archival upgrade, or a developer seeking innovative API toolkits, we have solutions to fit every need, and an experienced team ready to assist you every step of the way.
